LIFELINE

August 2017

(Someone to talk to....who understands)

Greetings to all the members and supporters of the Harvey Floyd Chapter of Us TOO .

Our support group vision is: *"To provide the highest level of leadership, compassion and promotion of an enhanced understanding of prostate cancer while improving the quality of life for survivors, their families and men at risk through proactive programs and positions".*

Call in to a Prostate Cancer Support Conversation

We trust you are having an enjoyable and safe break from our monthly support group meetings. During our break we encourage you to stay connected by joining a Prostate Cancer Support conversation.

The *Answer Cancer Foundation* and its partner *The Reluctant Brotherhood* are the first and only virtual real time audio/visual peer-to-peer support group for prostate cancer. Through these sites you can gain valuable information from other men who are also battling prostate cancer. This can be as convenient as picking up the phone. Simply call in and talk with a group of fellow prostate cancer survivors who have joined together under the banner of "*The Reluctant Brotherhood*."

Every Monday night there's a lightly-moderated conference call for men to talk about whatever aspect of prostate cancer they choose to discuss. The focus of the calls alternates every other week between topics that affect newly diagnosed/active surveillance and topics about advanced disease.
