**LIFELINE**

August 2018

(Someone to talk to....who understands)

Greetings to all the members and supporters of the Harvey Floyd Chapter of Us TOO .

**Our support group vision is: "To provide the highest level of leadership, compassion and promotion of an enhanced understanding of prostate cancer while improving the quality of life for survivors, their families and men at risk through proactive programs and positions".**

## Call in to a Prostate Cancer Support Conversation

Getting valuable information from other men who are also battling prostate cancer can be as convenient as picking up the phone. Call in to talk with a group of fellow prostate cancer survivors who have joined together under the banner of "The Reluctant Brotherhood." Every Monday night there's a lightly-moderated conference call for men to talk about whatever aspect of prostate cancer they choose to discuss. The focus of the calls alternates every other week between topics that affect newly diagnosed/active surveillance and topics about advanced disease.

Caregivers Call- This call is for all Stage 3, Stage 4 and bereaved caregivers .... not just prostate cancer, because the issues are so similar and they are not creating the call to discuss technical aspects of any particular disease management. Check out all the details at: <http://www.ancan.org/support-calls>

We are looking forward to resuming our monthly support group meetings on September 9th.
